Research Statement

Computational biologist investigating how genomic variation and artificial intelligence converge to decode the biology of complex diseases. I develop scalable and reproducible pipelines for genetics (Runs of Homozygosity (ROH), Genome-wide Association Study (GWAS), and expression quantitative trait loci (eQTL) fine-mapping) and genomic modeling (bio-inspired GCN frameworks, integrative transcriptomic–genetic analysis, and end-to-end bioinformatics workflows) to uncover disease mechanisms across diverse populations.

Education

2018 – *2024*
P.hD., Computational Biology, IIIT-Delhi
Research Area – Cancer Genomics.
Thesis title: *Design and development of AI-based computational tools for identifying predictive biomarkers and signaling pathways for blood cancer.*
Advisors: Prof. Anubha Gupta (IIIT Delhi) and Prof. (Dr.) Ritu Gupta (AIIMS, Delhi)

2014 – 2016
M.Tech., Instrumentation & Control ZHCET, Aligarh Muslim University.
CPI – 9.0 (First Class Honours)
Thesis title: *Detection of Brain tumor in Brain MRI (Magnetic Resonance Imaging).*
Advisor: Prof. Yusuf Uzzaman Khan

2006 – 2010
B.Tech. Electrical Engineering, BSACET College, AKTU.
Marks – 68.78%

2003 – 2004
12th Std., P.D.D.S.V.M, Vrindavan.
Board – C.B.S.E.
Marks – 74.40%

2001 – 2002
10th Std., P.D.D.S.V.M, Vrindavan.
Board – C.B.S.E.
Marks – 79.20%

Research Experience

May 2024 – *Till Now*
Postdoctoral Research Scientist
Department of Neurology, Columbia University Irving Medical Center (CUIMC), New York, USA.
Project: Genetic fine-mapping of Alzheimer's disease using multi-omics integration, Runs of Homozygosity (ROH), and eQTL analysis across diverse populations.
Key Contributions: Developed scalable pipelines for ROH detection, ancestry-specific meta-analysis, and eQTL–GWAS colocalization across populations.

Research Experience (continued)

2018 – 2024 **Doctoral Researcher (Ph.D. in Computational Biology)**
Indraprastha Institute of Information Technology Delhi (IIIT-Delhi), India.
Thesis: AI-driven biomarker discovery and genomic modeling in Multiple Myeloma.
Key Contributions: Developed *miRPipe*, *miRSim*, and *Bio-DGI* frameworks for small-RNA sequencing and AI-based multi-omics integration to identify novel biomarkers distinguishing MGUS and MM.

2015 – 2016 **Graduate Researcher (M.Tech. Thesis)**
Aligarh Muslim University (AMU), Aligarh, India.
Thesis: Detection of brain tumors in MRI using image processing and machine learning techniques.
Tools: MATLAB, SVM, and feature extraction methods for biomedical imaging.

Teaching

Jan 2017 – Dec 2017 **Assistant Professor** Electrical and Electronics Dept., PSIT.

Aug 2016 – Dec 2016 **Assistant Professor.** Electrical Department, Sanskriti University.

Oct 2012 – March 2013 **Course Instructor (Ad-hoc)** Electrical Department, ADKMP College.

Jan 2013 – March 2013 **Lecturer(Ad-hoc)** Electrical Department, BSA College.

Aug 2010 – Sept 2012 **Lecturer.** Electrical Department, Mangalayatan University.

Skills

Languages	Strong reading, writing and speaking competencies for English.
Coding	MATLAB, Python, R, Bash, Awk, LaTeX
Misc.	Academic research, teaching, training

Miscellaneous Experience

Awards and Achievements

2010 **Competition Prize for Outstanding Performance in MATLAB Code Challange**, BSA Engg. College.

Certification

2017 **Medical Image Analysis**. Elite certification in NPTEL Online certification.

Enhancing Soft Skills and Personality. Elite certification in NPTEL Online certification.
